DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE			
<p>The bricks, laid in running bond, in this $3\frac{1}{2}$ story house are painted mauve, a pleasant muted tone harmonizing with the adjacent buildings which were all built in in the last quarter of the 19th century. The doorway, framed in marble, has a basket handle arch and has a transom. Six steps lead to a stoop before a vestibule and inner door. All the windows except the attic are rectangular, one over one lights with flat-arched brick lintels and marble sills. The slate-shingled Mansard roof, rising above a projecting cornice which is supported by brackets, is pierced by two full-arched dormer windows, the surrounds of which appear to be wood. A pavilion</p> <p>A pavillion effect is created in the attic by placing the central portion in low relief and edging it with curbing. The dormer windows are double hung with 2/2 lights. Two basement windows puncture the marble ashlar base which is capped by a projecting marble belt course. The first floor windows above are the tallest on the facade, rising to the height of the entrance opening.</p>
